

DATA VIZ PROCESS BOOK

Mapping Restaurant Quality Across NYC

Goal: compare inspections and public reviews across NYC.

1. Project Overview

- Inspection patterns by borough
- Cuisine and neighborhood differences
- Do reviews match inspection results?

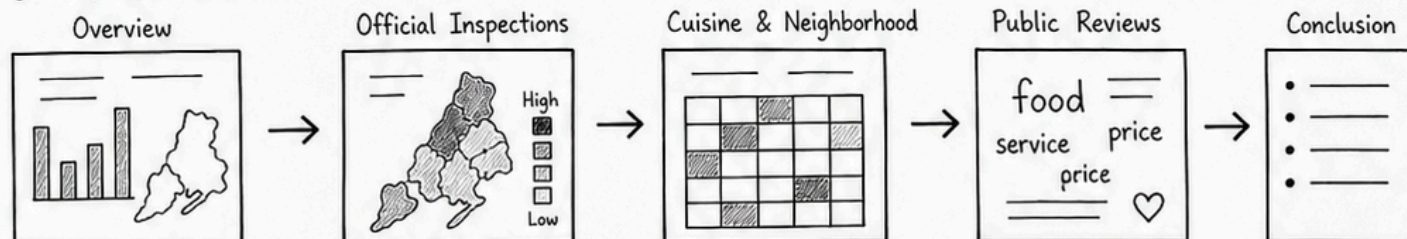

2. Data & Methods

- ☐ NYC inspection data
- ☐ Borough / location data
- ☐ TripAdvisor reviews
- ☐ Latest record per restaurant
- ☐ VADER sentiment
- ☐ Fuzzy matching

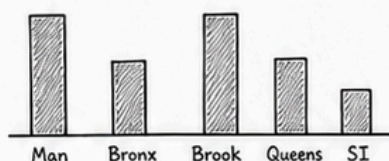

Note: more Grade A than B/C matches.

3. Website Plan

4. Main Visuals

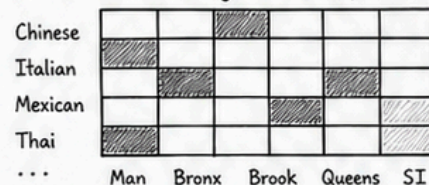

1) Borough bar chart

2) Choropleth map

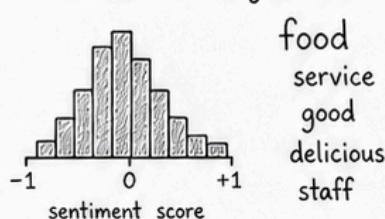

3) Cuisine-borough heatmap

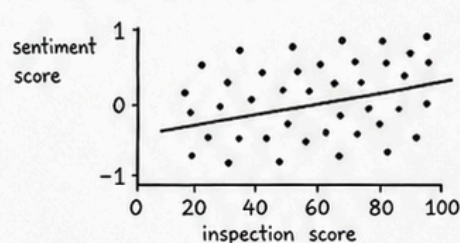

4) Critical violation map

5) Sentiment histogram + words

6) Sentiment vs score

Each chart shows a different side of restaurant quality.

5. Main Findings

- Borough patterns differ
- Some cuisine-borough groups do worse
- Violation risk is uneven
- Reviews stay mostly positive
- Sentiment weakly matches inspection score

6. Final Takeaway

Inspections and reviews show different sides of restaurant quality. We need both.
